PAKISTAN FLOOD RESPONSE REPORT

THE SITUATION

The National Disaster Management Authority (NDMA) of Pakistan reports some **33 million people affected** by unprecedented flooding and landslides across the country.

The Government of Pakistan has declared a **national emergency** in the country, with 116 districts affected, including 66 districts officially declared 'calamity hit'.

Around 2 million acres of crops and orchards have also been negatively impacted. Over 1,300 people have lost their lives.

There is a looming risk of water-borne diseases in the coming months leading into frigid winters.
